

## **Coomera Springs State School**

### **Religious Education in School Hours**

Our school offers all students the opportunity to participate in cooperative Religious Education (RE) for 30 minutes each week.

The leaders of our local Christian churches have agreed to provide a common program of RE. The program aims to provide an educationally sound religious education program which helps students explore and understand Christian beliefs and practices. Emphasis is also given to life skills and socially helpful behaviour. The lessons are interesting, memorable, fun and relevant to the students age group.

All RE teachers are authorised and accredited, and use only approved non denominational curriculum materials. A range of support resources are used such as music, story telling, reading, drama, role play, mime, puppets, DVD's, discussions, quizzes and activity booklets.

Our RE program is supervised by a Management Committee comprising our Principal, a local Ministers representative, the school RE Coordinator, a staff member and a parent.
